

LYDON

SOLUTIONS

Microsoft® SharePoint® Solutions

FOR CONSTRUCTION

Lydon Solutions simplifies even the most complex construction projects by putting all your critical project information in one place.

KEY BENEFITS

-  **Cost Savings** – Save by using existing SharePoint licenses and one platform throughout your organization.
-  **Construction project management** – Design all your forms, workflows and tools in an easy-to-use and familiar interface.
-  **Secure information sharing** – Share access with all project stakeholders using robust permission controls.
-  **Comprehensive reporting** – Integrate critical information from your subcontractors, vendors and clients.
-  **Mobile access** – Be productive in the field and office using cloud-enabled tools with off-line capabilities.

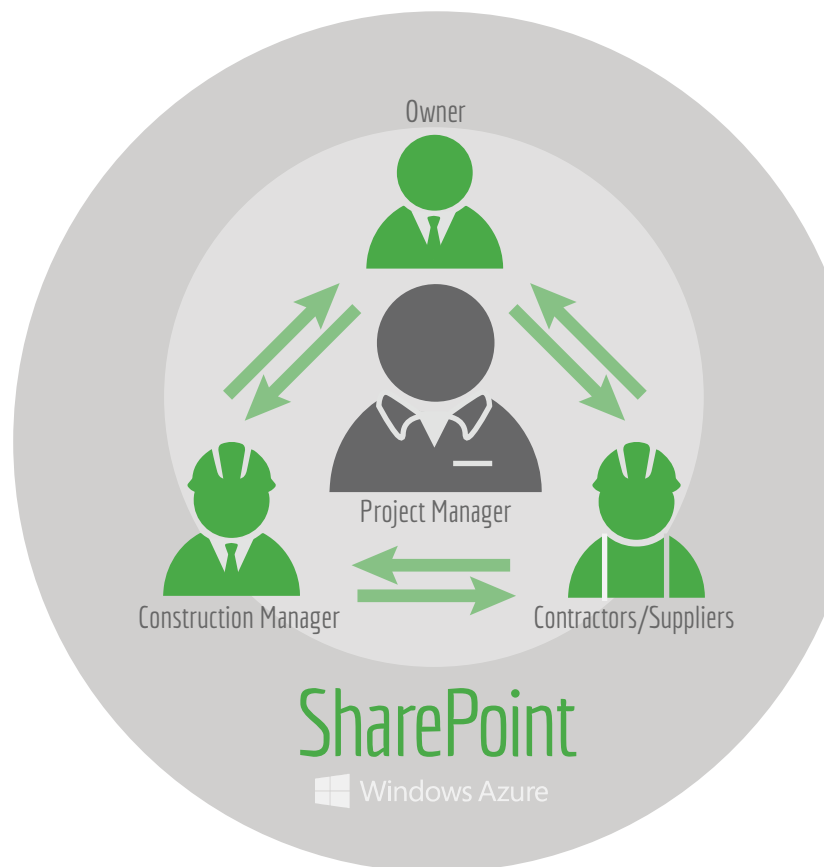

LYDON SOLUTIONS SHAREPOINT PORTAL

We build our ecosystem around Microsoft SharePoint, the ideal platform for construction management with essential functions included out of the box.

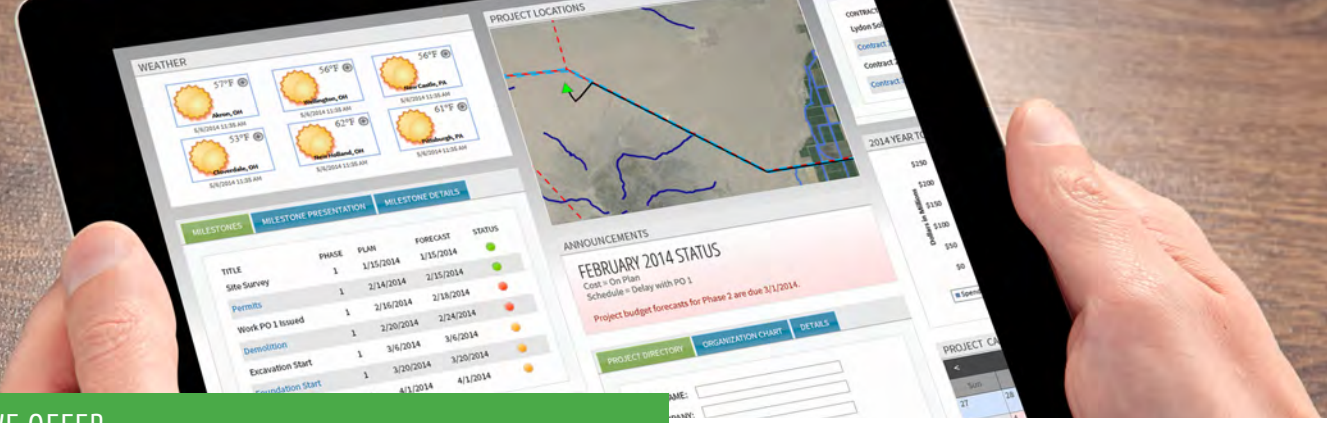

Additional features can be easily added through configuration, customization, third party products and integration.

KEY FEATURES

- **Industry Leader** – Trust in a solution with 100+ million licenses and used by Fortune 500 companies.
- **Simplicity** – Reduce training needs with an easy-to-use and familiar platform.
- **Complete solution** – Use forms, workflows, collaboration tools, content management, reporting and more out of the box.
- **Seamless** – Integrate with your existing enterprise applications.
- **Scalability** – Add functionality easily through configuration and low-cost third party tools.
- **Visibility** – View reports and project updates with configurable dashboards.

The Lydon Solutions Project Portal puts the Project Manager at the center of everything with easy information sharing, reporting and collaboration.

WHAT WE OFFER

Construction expertise – Our team combines in-depth IT expertise with hands-on construction industry experience deploying solutions on multi-billion dollar construction projects.

Industry standard software – We build and host solutions with Microsoft SharePoint and other industry standard software platforms, including Oracle® Primavera P6 and Contract Manager, Microsoft Office® and Project® Server, Esri® ArcGIS and more.

Enhanced efficiency and cost savings – Save time and money with one central location for contractors, construction managers and owners to collaborate, monitor and report on all aspects of a project's health.

Hosted Solutions – Our solutions can be delivered on premise or off. If you prefer to leave the hosting to us, you can be confident that your data is secure and will be available when you need it. The Lydon Solutions data center is hosted on Microsoft Azure™, the same cloud provider selected by numerous Fortune 500 companies for its security, scalability, reliability and flexibility.

Construction project management & collaboration tools tailored to your business.

EXAMPLE FEATURES & INTEGRATIONS

 **Project Management** – Manage your project using familiar tools with anywhere access and built-in collaboration features.  

 **Content Management** – Store all your critical project information in one place with full access control.    

 **Collaboration Tools** – Collaborate with team members using instant messaging, discussions boards, blogs, Wikis and more.   

 **Construction Software** – Host your familiar software integrated with SharePoint and available to your entire project team.  

 **Integration Services** – Integrate with Microsoft Office and other enterprise apps.   

WHY LYDON SOLUTIONS?

Lydon Solutions specializes in IT tools and services designed for our clients in the construction and utility industries.

Advantages of working with Lydon Solutions:

- **Full solution provider** - Lydon Solutions offers an end-to-end SharePoint solution that includes requirements definition, development, hosting, implementation and support.
- **Faster deployments** - Our familiarity with construction saves you time and money. You and your staff will not have to spend time explaining basic industry practices and we can instead get down to gathering requirements and building solutions.
- **A library of common construction industry forms and resources** - We have an extensive and growing library of industry standard forms and workflows commonly used in the construction industry. We will work with you to integrate your existing forms and workflows, customizing when necessary, to shorten development time and reduce costs.
- **A commitment to customer satisfaction** - We stand by what we build. Our support team is available by phone, email, chat and web. We offer a variety of support options to meet your business needs.
