# Capability Statement

## About Lydon Solutions

Founded in 2009, Lydon Solutions is a privately held, certified Woman-Owned Business with offices in California, Washington, and the United Kingdom. We provide Microsoft-based IT solutions and services to the construction industry and a configurable SaaS PMIS solution for Microsoft 365 called Construction Viz. Lydon Solutions has delivered IT systems to some of the largest utilities and construction management organizations in the U.S. We have received multiple awards for our solutions and implementation services.

## Clients

Lydon Solutions designed, built, implemented, and is supporting:

### Pacific Gas and Electric

Construction Viz and externally hosted SharePoint solution to manage a multi-billion dollar transmission and distribution program.

### HDR

Construction Viz and Office 365 to manage AZ I-17 Expansion and WA Lower Baker Dam Grouting, both programs over \$300M.

### Stantec

Construction Viz and externally hosted SharePoint to support the \$500M STEP Water and Wastewater program.

## Core Competencies

### IT Services - Specialists in the following Microsoft products

- Microsoft 365, SharePoint, Power Platform, SQL, and Azure.

### IT Product - Construction Viz for Microsoft 365

- Proprietary enterprise construction PMIS powered by Microsoft 365.
- Implemented on multi-billion dollar construction programs.
- Suite of robust applications for managing all project types and phases.
- Progressive Web App (PWA) for being responsive on any mobile device with offline capability.
- Microsoft's Identify Platform ensures application and data are both secure.
- All data is secure in your Microsoft 365.

A Woman-Owned Business
